

Experienced or Graduate Geotechnical & Environmental Engineers & Engineering Geologists

The Cardno Group is one of Australia's leading Consulting Engineering companies with exposure nationally and internationally. Since listing on the Australian Stock Exchange in May 2004, Cardno has enjoyed strong growth with the completion of successful projects as well as a number of mergers and acquisitions over the last twelve months.

Cardno Ullman and Nolan Geotechnic (Cardno UNG) are currently seeking experienced and entry level candidates from the civil/geotechnical, environmental or earth sciences/geology fields with 0-5 years experience to join their expanding team in their Mackay office, Central Queensland.

Cardno UNG specialise in land and water related geotechnical and environmental engineering issues, including:

- Foundation investigations
- Pavement designs
- Slope stability assessments
- Mining engineering services
- Environmental management plans
- Effluent disposal
- Soil & water monitoring & investigations
- Acid sulfate soils

Key selection criteria for this position include:

- Degree in the field of earth science/geology/engineering
- Exposure to soil mechanics and hydraulics
- Strong written and communication skills
- Ability to work accurately and systematically with limited direction
- Good teamwork and cooperation skills
- Field and/or laboratory experience desirable
- Knowledge of relevant Australian Standards and Guidelines desirable

The successful candidate will have the opportunity to work on a diverse range of projects in the Mackay region. The role will have an emphasis on fieldwork but will also include report preparation.

This is an exciting and challenging role for a graduate or mid-level individual interested in working with land/water issues in a consulting engineering environment.

Does this sound like your kind of role...apply now, the opportunity awaits.

Please forward your CV via email to Andrew Williams: soils@cardno.com.au
