Subject: call for papers for the 18th International Conference on Soil Mechanics and Geotechnical Engineering (ICSMGE'13), Paris, France, 2-5 September 2013

Dear Presidents and Secretaries
of ISSMGE Member Societies,
Dear Colleagues,

On behalf of the Organizing Committee for the 18th ICSMGE, I would like to inform you that the call for abstracts is now open.

According to the ISSMGE by-laws, the abstracts are selected by the Member Societies. The one page abstracts will be written in English or in French. The instructions for abstracts will be available on the Conference website and are attached to this message. Please note that the website (www.paris2013-icsmge.org) also provides a management tool for submission and acceptance of abstracts as well as of final papers. It can be used by authors for submission to their Member Society and by the Member Society to review abstracts and papers.

Selected abstracts have to be submitted by each Member Society to the Organizing Committee through the Conference website by 15 April 2012.

Although the Member Societies are requested to review the abstracts before submission, the abstracts will also be reviewed by the Scientific Committee of the Conference after submission by the Member Societies. Notification of the abstracts final acceptance will follow shortly.

Each Member Society is allocated a number of pages in the Proceedings following established ISSMGE rules. The number of pages will be indicated by the Secretary General of ISSMGE. All final papers should be four pages long. These indications will allow you to determine the number of abstracts for your Member Society.

After acceptance of the abstracts by the Organizing Committee, the Member Societies will be requested to collect the final four pages papers. After reviewing the papers, the Member Societies will transfer them to the Organizing Committee through the Conference website before 15 January 2013. The instructions for full papers will be available on the website. The final acceptance of the papers will be notified to the authors by 15 April 2013.

If you have questions, please contact us. We thank you very much in advance for your kind assistance and we look forward to receiving your abstracts by 15 April 2012.

With best regards

Philippe Mestat
President of the Organizing Committee
